SKILLS

- Languages:** Python, Java, C#, HTML5, CSS, JavaScript.
- Frameworks:** ASP.NET Core MVC, .NET Framework.
- Databases:** MySQL, SQL Server,
- Tools/Platforms:** Visual Studio, Git, Entity Framework Core, AWS, TensorFlow, Scikit-learn, Pandas.
- Soft Skills:** Critical Analysis, Teamwork, Project Management, Flexibility.

TRAINING

.NET Full Stack Training

Capgemini (Left Shift Program)

Dec '25 – Present

- Gaining hands-on experience in C# programming and .NET Framework, implementing OOP concepts, collections, generics, and exception handling to build modular and reliable applications using Visual Studio.
- Developed web components using ASP.NET Core MVC and Entity Framework Core with basic CRUD operations, while gaining exposure to SQL Server and SDLC models (Waterfall, Spiral, V-Model).

Cloud Computing Fundamentals

CipherSchools

Jan' 24- Feb' 25

- Completed hands-on training in AWS, exploring EC2, S3, IAM, Lambda, RDS, and core cloud services.
- Designed and deployed scalable applications using AWS infrastructure; focused on cost optimization and security.

Product Management

Jun' 24- Aug' 24

CipherSchools

- Accomplished a Product Management training, mastering Lean Product Process, Agile development, UX design, and user testing.
- Created and presented 3+ product case studies and LinkedIn projects, published 10+ blogs, and shared 50+ posts on product strategies, user engagement, and growth optimization.

PROJECTS

Student Management System (ASP.NET MVC)

Mar' 26 – Present

- Developed a full-stack ASP.NET Core MVC application using Clean Architecture with Repository and Service patterns.
- Implemented CRUD modules for Students, Courses, and Enrollments with Entity Framework Core (DB-First).
- Added AJAX-based status toggles, dynamic search/filtering, and duplicate enrollment validation.
- Designed a responsive dark-theme dashboard with KPI metrics for real-time insights.
- Technologies Used:** ASP.NET Core MVC, C#, Entity Framework Core, SQL Server, Bootstrap, jQuery, AJAX.

Electricity Demand Forecasting

Oct' 24- Nov 24

- Built a GRU-based deep learning model for time-series forecasting using **5+ years** of historical data.
- Optimized model performance through **10+** data preprocessing and feature engineering techniques.
- Evaluated results using **MSE (<0.02), MAPE (5.3%), and R² (0.89)** to ensure accurate and reliable predictions.
- Technologies Used:** Python, TensorFlow/Keras, Pandas, Scikit-learn, Matplotlib.

CERTIFICATES

- Supervised Machine Learning | **DeepLearning.AI** Aug' - Sep' 24
- Machine Learning Program | **Geeksforgreeks** May - Jun' 24
- Technical Support Fundamentals | **Google** Feb' - Jul' 23
- Digital Skills | **Accenture** Jan' 22

ACHIEVEMENTS / CURRICULUM

- Co-Authoring NLP Research Paper | IEEE** Oct' - Jan' 25
Collaborated with IEEE to publish a research paper on NLP on the topic of English-Hindi Translation.
- Top 30 — Internal Smart India Hackathon** Oct' - Nov' 24
Ranked among the **top 30 out of 400+ teams** for presenting innovative tech solution in internal hackathon.
- Technical blogging** May 24
Published technical articles on AI/ML and software development topics, simplifying complex concepts for learner audiences.

EDUCATION

Lovely Professional University

Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.98**

Punjab, India
Apr 2022 - Present

Calcutta Public School

Higher Secondary; **Percentage: 84%**

West Bengal, India
Apr 2020 - Mar 2022

Calcutta Public School

Secondary; **Percentage: 92%**

West Bengal, India
Apr 2018 - Mar 2020
